

HPLC Anywhere®

Never thought you could have **An HPLC as a Teaching Tool?**

THINK AGAIN!

The Axcend Focus LC® is the latest innovation in capillary HPLC using minuscule amounts of solvent resulting in almost no waste when compared to traditional systems. These aspects make it safe to operate in classrooms and non-laboratory environments. Plus, the Axcend Focus LC is so lightweight that it can be carried in and out of the classroom as needed. Benefits include:

- ZERO** Operating Costs (we pay for your mobile solvents for 3 years)
- ZERO** Downtime (we will replace your system with a service unit within 24 hours)
- ZERO** Learning Curve (the system is tuned and ready to use out-of-the-box)
- ZERO** Wrenches (no tools are needed for maintenance or column replacement)
- ZERO** Bench Space (totally portable, the system can be carried to the classroom)
- ZERO** Environmental Impact (uses 1,400 times less solvent than a traditional HPLC)
- ZERO** Safety Risks (system is self-contained with no user exposure to chemicals or waste)

**Academic Special — All inclusive:
ONLY \$39,900**

Contact us today for details on how to turn your classroom into a laboratory.
